Deep Well Plates
1.0 mL | 2.0 mL | 2.2 mL

Contaminant-free - manufactured in a class 100K cleanroom facility

Certified purity - free of DNase, RNase and endotoxin inhibitors

Fully autoclavable - thermostable to 121°C, AHN myPlate® Deep Well Plates are autoclave-ready for easy sterilisation and decontamination after use. Safe for use in high-temperature protocols up to 121°C

Freezer-ready - excellent low temperature stability, AHN myPlate® Deep Well Plates can be used for sample and reagent storage in refrigerators and freezers. Safe for use on low temperatures up to a limit of -80°C

Alphanumeric sample index - feature an intuitive, embossed sample index with alphanumeric code for easy well identification

ANSI compliant - including ANSI/SLAS standards for microplate dimensions ensuring universal compatibility with standard handling platforms

Easy stacking - compact design saves space on workbench or in storage

Raised-rim design - minimises cross-contamination across sample wells, and feature a subtle raised-rim design around the opening of each well

Compatibility list - see page 97
