EL³ Tips

EFFORTLESS Pipetting, Tip Loading, Tip Ejection — NEW PRODUCT

PURITY CERTIFIED

Designed for optimal performance - with Rainin® LTS® style pipettes

Cylindrical tip and shaft mechanism - innovative tip design of the tips ensures a perfect fit, and EL³ technology eliminates high force to deliver much more comfortable pipetting experience

Positive stop feature enables the tips to be attached and removed quickly and effortlessly, whilc ensuring a perfect seal between the pipette and the tip

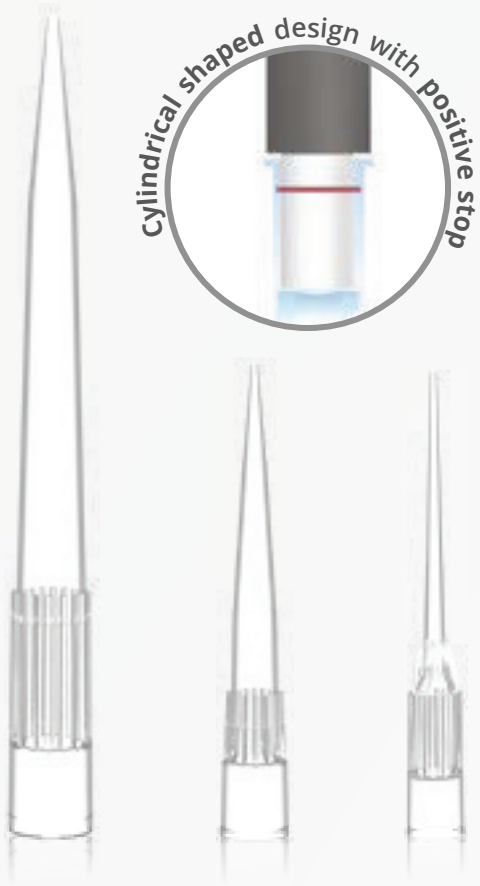

Colour-coded trays - for easy identification of tip and pipette volume

Graduation marks used for visual control - to facilitate identification and minimise the risk of errors during pipetting

Materials - Certified free of RNase, DNase, PCR Inhibitors, Endotoxins and Pyrogens. US FDA approved medical grade virgin polypropylene plastic without any trace of metals, highly transparent and clear

Manufactured - in Class ISO 8 cleanroom facility with automated manufacturing

Versions - available in rack, reload, eco-rack

Ordering information

Pipette Tips
