Screw Cap Tubes

Fully Automated Manufacturing

Manufactured in a controlled Class 100K cleanroom environment with no secondary assembly operation involved reducing the chance of contamination due to manual handling

Unique Infused 'O' Ring Design

Seamlessly moulded during production in Class 100K clean room for reduced contamination risk. Provides superior seal-ability and leakproof stability compared to traditional O-ring designs.
O-ring material: High-quality EPDM (Ethylene Propylene Diene Monomer)

Ergonomic Design

Features an ergonomically knurled surface for a secure grip, ensuring smooth handling even with gloved hands

Built to Endure Rigorous Conditions

Withstands extreme centrifugation speeds up to 20,000g. Durable for -80°C freezing and subsequent thawing at room temperature without compromising integrity

Diverse Volume Ranges & Variants

Available in three convenient volumes
0.5 mL, 1.5 mL, 2 mL
Clear and amber variants, Low retention, skirted or conical formats to suit diverse lab applications

IATA Standards

Tubes are rigorously leak-tested to meet the standards

Sterility Assurance

Screw Cap Tubes are gamma sterilized, ensuring (SAL 10^{-6})

Certified

RNase, DNase, Endotoxin, PCR Inhibitor-free
