ahn *myVial*®

Diagnostic Vial

Fully Automated Manufacturing

Manufactured from 100K class cleanroom Constructed from USP Class VI US FDA Approved PETG material

Exceptional Clarity

Ultra-clear PETG ensures effortless visual inspection of contents, making it ideal for diagnostic and clinical applications.

Diverse Volume Ranges

Available in three volumes 5ml, 10ml, 20ml

Leakproof Security

Each vial is fitted with a precision-engineered HDPE screw cap and an integrated polyethylene cap liner that ensures a secure seal, minimizing leakage during transport.

Non-Cytotoxic & Non-Pyrogenic

Tested and certified to be safe for biological samples, supporting sensitive diagnostic and pharmaceutical workflows.

Sterility Assurance

Gamma sterilized (SAL 10^{-6}) in ISO Class 7 cleanroom conditions for assured contamination-free performance.

Certified

RNase, DNase, Endotoxin, PCR Inhibitor-free

Packaging

Available in a variety of standard sizes with tailored packaging options to match your workflow needs
