ActiveCount
REMOTE IMPACTOR SERIES

ActiveCount's Remote Impactor Series – a premier range of modular active air samplers designed with a focus on portable and remote applications.

These samplers stand out with their autoclavable, modular design that streamlines your decontamination processes. When viable sampling is part of your day-to-day, you need tools that adapt. The Remote Impactor Kit is modular, scalable, and ready to meet your needs.

Compatible with ActiveCount models AC100H and AC25H - or your in-house vacuum system, these samplers come equipped with dual sealing technology to prevent leaks, and offer flexible bottom or side mounting options. Whether you're sampling with petri plates or Rapid Micro Bio (RMB) cassettes, this system molds to your process.
